

ALL THAT WE ARE

Art, Community, Achievement

Qtr 2 2025 THEATRICAL RELEASE

A group of everyday people with no performance experience take on the challenge of an awe-inspiring aerial spectacle, overcoming fear, doubt, and personal struggles to create a breathtaking display of courage and community.

With the nail-biting heights of *Free Solo* and the heartwarming community spirit of *The Choir of Hard Knocks*, *All That We Are* follows a group of everyday people coming together to create a breathtaking aerial performance.

This Observational Documentary follows the volunteers taking on the challenge of being harnessed and craned 30 meters into the sky over the Nepean River. What begins as a daring artistic endeavour becomes a powerful journey of self-discovery, resilience, and unity.

As the performance unfolds, each participant faces their own struggles, from overcoming personal fears to healing from past hardships. But through trust, teamwork, and the sheer exhilaration of defying gravity, they not only elevate themselves but also uplift their community. *All That We Are* is a visually stunning and emotionally resonant documentary that celebrates the power of art to connect, heal, and inspire.
